2625 Mountain Dale Ct, Antioch, TN 37013

PROFILE

A passionate software developer who is seeking an opportunity to work in a challenging working environment that will encourage me to utilize my experience and learn new skills.

SOFTWARE SKILLS

- Working knowledge of .NET/C#
- JavaScript, React, HTML, and CSS
- Microsoft ASP.NET MVC, Web API experience
- Hands-on SQL experience
- Git and GitHub

EDUCATION

Nashville Software School (NSS)

Intensive full-time 6-month software development bootcamp focusing on full-stack (C#/.NET) development fundamentals and problem solving (Feb. 2020 – Aug. 2020)

Tennessee State University

B.S., Computer Science (2014 –2018)

WORK EXPERIENCE

FREELANCE

Aug. 2020 – Present

- Freelance Software Developer

HYLA MOBILE

Phone Processing Technician | Feb. 2019 – Feb 2020

- Inspect and grade physical condition of phones and provide a report for each phone
- Face to face customer service

MAPCO MART

Assistant Manager | Feb. 2015 – Jun. 2018

- Promoted a store environment that was sharply focused on consistently delivering exceptional in-store shopping experience

SOFTWARE EXPERIENCE

FULL-STACK SOFTWARE DEVELOPER

Nashville Software School | Feb. 2020 – Aug. 2020

EzBuy

- Ezbuy is a web application that allows users to store favorite items in different lists and compare products to make purchasing decisions easier
- Technologies used: React, ReactStrap, CSS, JSON-Server, Sketchboard, ERDs, Git, and GitHub
- Link to Project: <https://github.com/ShadyGrant/Capstone-EzBuy>

ohWaW

- ohWaw is a full-stack web application that allows users to post and review about rare products that can be found online or in-stores and allows users to interact with each other's posts
- Technologies used: .NET/C#, SQL, React, ReactStrap, CSS, Sketchboard, ERDs, Firebase for authentication, Git, and GitHub
- Link to Project: <https://github.com/ShadyGrant/ohWaW-Backend-Capstone->

Nutshell (Group Project)

- Built an application with four teammates that is a dashboard for users to organize their daily tasks, events, news articles, friends, and chat messages.
- I was responsible for implementing daily tasks from scratch as well as saving and deleting them from an API.
- We used JavaScript Native Modules, HTML, CSS, Flexbox, Json-servers, APIs, Relational data, ERDs, Git, and Github to build the website.
- The entire application was designed, implemented, and maintained remotely.
- Link to project: <https://github.com/nss-day-cohort-39/nutshell-razzmatazz-roadrunners>

Tabloid Full-Stack (Group Project)

- Built a full-stack application with three teammates that allows people to save info about favorite blogs, posts, and authors. Users can interact with each other's post by commenting on them
- I was responsible for implementing CRUD functionality for categories, tags, and comments.
- We used C#/.NET, SQL, REACT, ReactStrap, CSS, Firebase, ERDs, Git, and GitHub to build the application.
- The entire application was designed, implemented, and maintained remotely.
- Link to project: <https://github.com/nss-day-cohort-39/tabloid-full-stack-vanijies>
